

PGY-1 Pharmacy Residency

Medical City Arlington

Medical City Arlington is a 433-bed full-service acute care hospital in South Arlington serving Arlington, Mansfield, Grand Prairie, and other cities in North Texas. A Level II Trauma Center and Comprehensive Stroke Center, Medical City Arlington was the first certified Chest Pain Center in Tarrant County and is a top performer in heart attack, heart failure, pneumonia, and surgical care as designated by The Joint Commission. As the official hospital of the Texas Rangers, Medical City Arlington provides high quality orthopedic services and is known for cancer, neurosurgery, spine, and gastrointestinal care. Medical City Arlington delivers approximately 3,500 babies annually and is staffed by more than 1,500 dedicated professionals and volunteers, including more than 800 physicians. Medical City Arlington is part of Medical City Healthcare, one of the largest healthcare systems in North Texas.

HSC College of Pharmacy

HSC College of Pharmacy is one of five schools located at the University of North Texas Health Science Center at Fort Worth.

The College of Pharmacy's mission is to create solutions for a healthier community by developing patient centered pharmacy professionals, promoting team healthcare, and optimizing health through discovery. The College trains pharmacy students to enter any area of pharmacy practice or pharmacy residency. Residents within the college work with students in didactic and skills-based courses, as well as on experiential rotations, and participate in a broad variety of pharmacy education and academia-related activities.

The global vision of the College of Pharmacy is to make healthcare better. Making healthcare better crucially depends upon improved teamwork of a variety of healthcare professionals and improved access for patients. We believe that pharmacy professionals in turn are crucial to both improved healthcare teamwork and patient access.

PGY-1 Pharmacy Residency
